

Help achieve your sustainability goals by choosing Original HP Cartridges

HP's sustainability practices go beyond recycling to include fair labor conditions, human rights, and environmental performance throughout the supply chain. By choosing Original HP Cartridges, you can help achieve your sustainability goals and feel positive about your procurement choices.

Help protect indoor air quality

Original HP Toner Cartridges are designed to meet eco-label emissions criteria to help maintain the indoor air quality where you live and work.¹

Increase recycling and buy recycled content

The HP Planet Partners recycling program makes it free and easy to return your used Original HP Cartridges for recycling.² HP uses recycled HP cartridge plastic as raw material in the manufacturing of new Original HP Cartridges.³

Original HP Cartridges returned through the HP Planet Partners program are never refilled, resold, or sent to a landfill.

Reduce waste

The consistent reliability and outstanding print quality of Original HP Toner Cartridges mean fewer reprints and less waste.⁴

Buy from a sustainability leader

- **Operations:** HP efforts reduce energy use, lower greenhouse gas (GHG) emissions, and minimize water use within our operations.
- **Supply chain:** HP motivates and empowers suppliers to enhance labor conditions, support human rights, and improve environmental performance at supplier production facilities.
- **Social impact:** HP is working to improve access to quality education, healthcare, and economic opportunities so everyone, everywhere—including disadvantaged populations and displaced people—can succeed in the digital economy and create better lives for themselves and their families.
- **Reporting:** HP publishes an annual report that highlights the company's sustainability impact goals and progress. See hp.com/sustainableimpact.
